Dataset

Small Area Population Estimates (2017, provisional)

Estimates of the usual resident population for Lower Layer Super Output Areas (LSOAs) in England and Wales by Broad Age and Sex.

Contact:
[Neil Park](#)

Release date:
22 June 2017

Next release:
June 2018

Dataset ID:
SAPE123

Download options

Filter and download

Excel (10.2kb)

csv (9.3kb)

Released

- Yearly

[Previous releases and version](#) of this data are available

What's changed?

Change in classification

Privatisation of organisations previously included in the public sector

In this dataset

Unit of measurement:

- Number of people

Geography:

- Country
- Region
- London Borough
- Metropolitan District
- Non-metropolitan District
- Unitary Authority

► [Learn more about geography in this dataset](#)

Age:

- Single years from 0 to 92 and over
- All ages.

► [Learn more about age in this dataset](#)

Sex:

All people, Female and Male.

► [Learn more about sex in this dataset](#)

Dataset notes

To protect the confidentiality of individuals personal information, this dataset provides data only for districts that have a minimum of 150 people.

Usage information

Free for public use. Citation: Office for National Statistics, Small Area Population Estimates, June 2017 [Terms & conditions](#)

Language

Available in English only.
